So why attend another conference?
What’s in it for ME?
If you are familiar with AzGA, you already know about the hundreds of high quality outline maps and K-12 classroom ready lessons available FREE on our website. If not, now is the time to make the Alliance resources a part of your teacher’s tool kit to make your job of teaching easier!

What can I expect from GeoConference?
• Sessions on Analyzing Primary Sources through a Geographic Lens
• An array of National Geographic Geography Awareness Week materials and activities to support this year’s theme: Explore! The Power of Maps
• GAW Student Contest information
• Elementary & Secondary lessons to take back to your classroom and teach the next day — All updated to the latest state standards.
• Lunch
• Geography content lectures by university instructors
• Networking with other teachers
• Door Prizes
• Receive 6.5 Professional Development hours

Benefits of geographic knowledge

People who are considered Geographically Literate
• Use geographic understanding and geographic reasoning to make decisions.
• Understand the interconnectedness of people and the physical world
• Can make decisions that are good for their own community and the world
• Have better skills for resolving conflicts
• Can compete in the global marketplace

We can help you provide this knowledge for all your students!

The Arizona GeoConference is for K-12 educators. Focusing on geography education, the event promotes professional growth and development and provides a unique opportunity to meet many outstanding Arizona educators.

GeoConference offers concurrent sessions on how modern geography can be easily integrated into almost all subjects at all grade levels. Sample lessons will be demonstrated, university instructors are scheduled for geography content lectures, new GeoTools and technology will be shared.

Come rediscover this revitalized discipline. Join us on Saturday, October 3, on the Scottsdale Community College campus in Scottsdale.
